

MOUNTED SPHERICAL ROLLER BEARINGS

Safety Mount[®] ISN

SN-dimensioned solutions for easy installation and removal

Safety Mount ISN mounted spherical roller bearings are the drop-in replacement solution to traditional SN-dimensioned products. ISN bearings are engineered with a patented tapered adapter for easier, faster installation and removal without damaging the shaft. Each ISN bearing arrives completely assembled and pre-lubricated to be shaft-ready out of the box—eliminating unnecessary hassle while saving you valuable time and money. As part of the Dodge[®] mounted roller bearing legacy that spans over 100 years, ISN bearings are the long-lasting solution for a variety of applications to keep your operations up and running.

ISN

- Factory greased and sealed
- Initial grease included with bearing
- Arrives as a fully-assembled, shaft-ready unit
- Constant seal pressure in misaligned conditions
- Seal and housing design retains grease near rollers
- Simple clearance setting, no special tools needed
- Easy, intuitive removal with included dismount mechanism

Standard SN

- User packs grease, subject to onsite contamination
- Customer pays extra for initial grease fill
- Individual parts in three or more packages, user-assembled
- Diminished seal pressure in misaligned conditions
- Grease migrates away from rollers to housing cavity
- Requires feeler gauges and experience assembling mounted bearings
- Difficult to remove with no built-in dismount mechanism

Premier sealing solutions

The Trident™ triple-lip contact seal is mechanically retained and is extremely effective for dirty, low- to medium-speed applications. For high-speed and high-temperature applications, a labyrinth seal option is available.

Trident seal

Labyrinth seal

End covers

When protection from rotating equipment is needed, easy-to-install end covers are available and help prevent contaminants from coming in contact with the seal.

Competitive interchanges for SN-dimensioned bearing units

Dodge units listed below match critical dimensions of SN-dimensioned bearings. Additional sizes are available upon request.

With the First-Fit Promise, you can switch with confidence

Switching brands shouldn't mean taking on risks. With the First-Fit Promise, you can order with confidence knowing Safety Mount ISN is a guaranteed drop-in interchange with zero modifications for the products listed in this document.

We guarantee you'll get equal or better performance, and if it doesn't live up to that promise, simply return it with no restocking fee—that's the First-Fit Promise.
