Stability. Safety. Support.

Enduring workplace stability

We don't just make products for our customers, we strive to provide the highest quality solutions and have been doing so since 1878. Our strong legacy of industry leadership, innovation, and best-in-class service provides a foundation for long-term careers.

World-class in safety

Dodge has earned multiple national safety awards and ensures employees follow national standards for job safety while working in well-lit, air-conditioned facilities.

Supporting the diamond standard

When you work for Dodge, you become part of our family. From on-the-job training to community events, we strive to empower our employees to succeed and create a family-oriented culture to effectively maintain the diamond standard.
